FLOOR PLAN FLOOR PLAN DRAWING GUIDE GRID (CONT.)

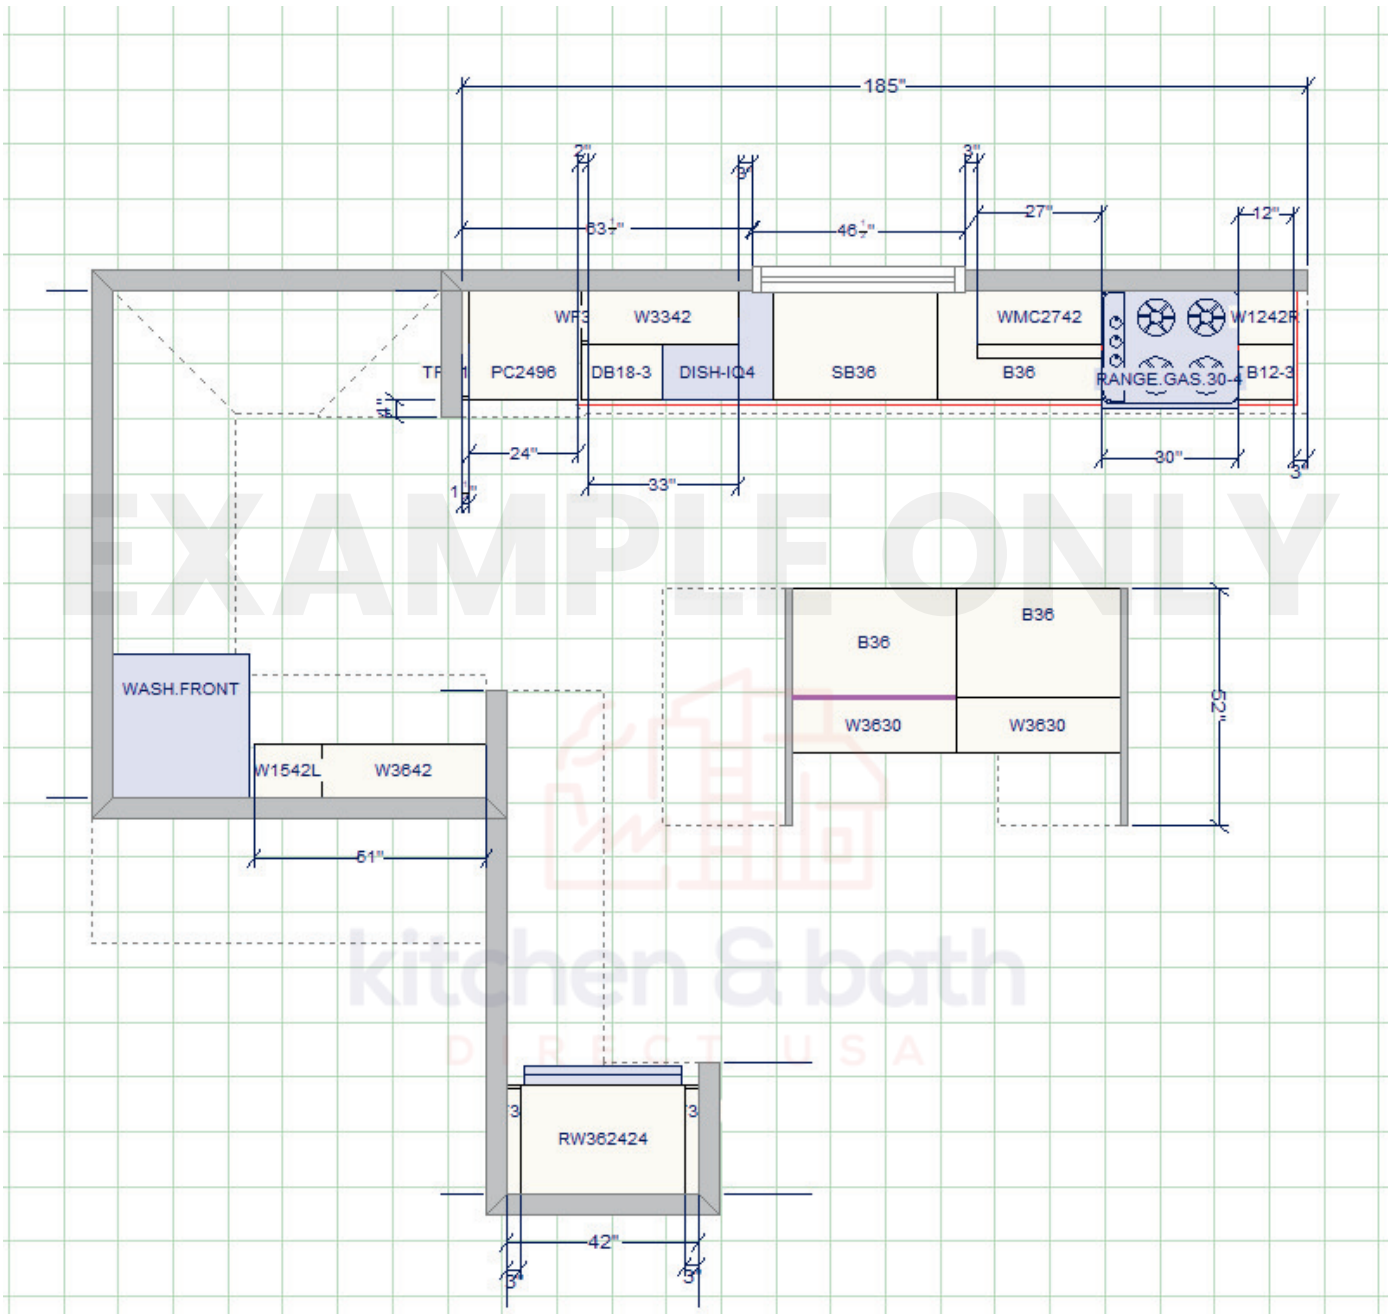

Use the grid below to sketch an aerial view (top view) of your space. Please follow each step carefully to complete your floor plan:

- Step 1:** Measure and outline the dimensions of your space.
- Step 2:** Mark all doors, windows, and room openings.
- Step 3:** Note any obstacles (columns, beams, soffits, etc.).
- Step 4:** Indicate the locations and sizes of appliances.
- Step 5:** Record the ceiling height.
- Step 6:** Take photos of your space and submit everything together.

KITCHEN FLOOR PLAN DESIGN DETAILED DRAWING TOP VIEW

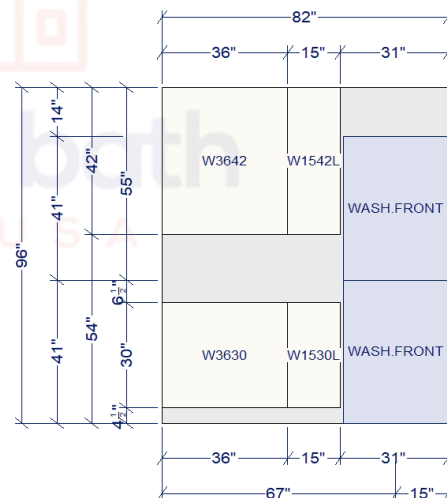

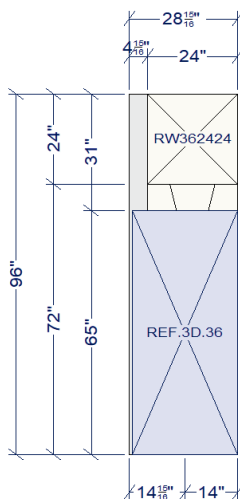

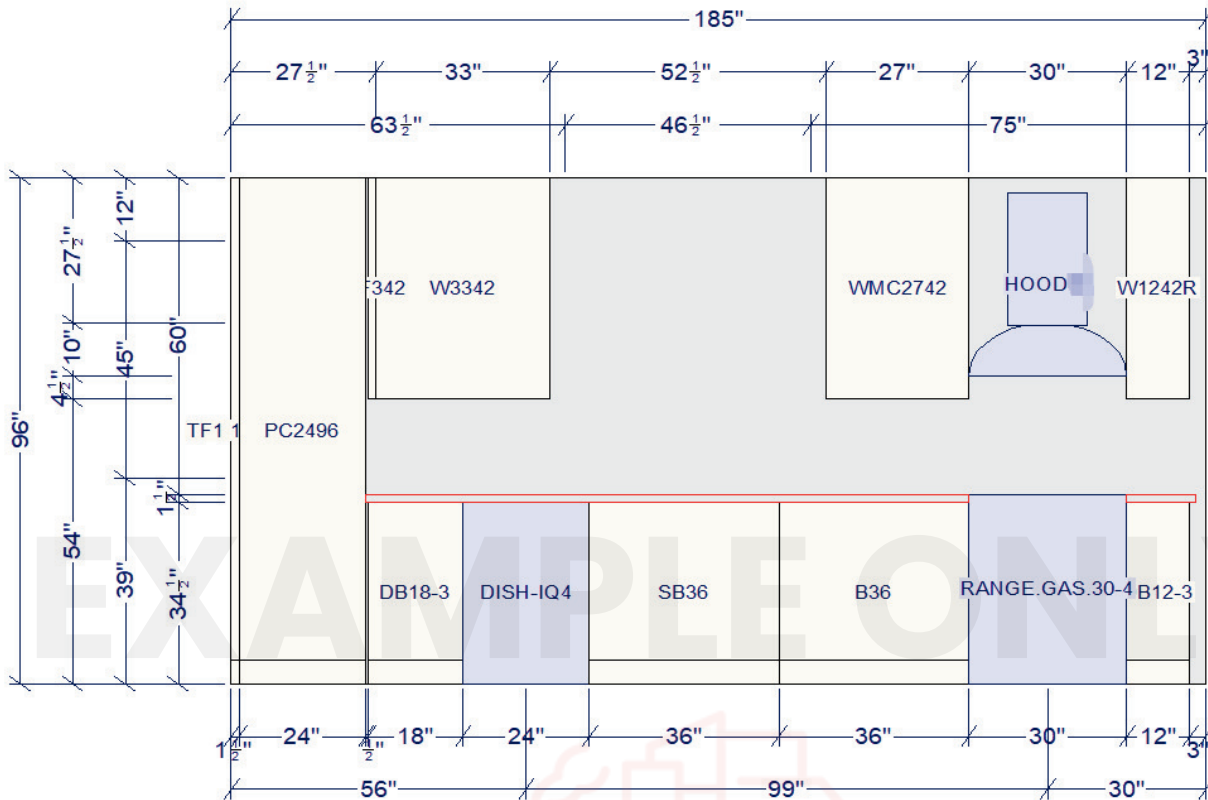

Overall Layout with Detailed Dimensions

The expected turnaround time for a design and quote is 24-48 business hours. Keep in mind this is subject to change depending on your design's complexity and the time of year. Review your design packet thoroughly before sending any comments or changes to your designer for revising. For more information, please call or text store: 909-686-1121 or your assigned sales rep directly.

For more information, please call or text store: 909-686-1121 or your assigned sales rep directly.

3D RENDERING DESIGN TOP VIEW AND ANGLED VIEW

The expected turnaround time for a design and quote is 24-48 business hours. Keep in mind this is subject to change depending on your design's complexity and the time of year. Review your design packet thoroughly before sending any comments or changes to your designer for revising. For more information, please call or text store: 909-686-1121 or your assigned sales rep directly.

MEASUREMENT AND LAYOUT IMPORTANT NOTICE & DISCLAIMER

Double-Check Your Measurements

To make sure your new cabinets fit perfectly, we kindly ask that you verify all dimensions before finalizing your order. Since every home is unique, the measurements you provide are what we'll use to prepare your cabinets.

Here are a few things to check:

- Appliance location & size
- Ceiling height
- Soffit height (if applicable)
- Window and door dimensions & placement
- Special features or obstructions (columns, beams, etc.)
- Drawings, renderings, or design details from your designer

It is the customer's responsibility to double-check and approve all designs and quotes prior to submitting an order.

Double-Check Color & Layout

Customers must confirm and approve all cabinet colors and finishes before the order is placed.

- If the kitchen layout/design is provided by Kitchen & Bath Direct USA, it must be reviewed and signed off by the customer. Products matching the approved layout are considered accurate, and any usability concerns are the customer's responsibility.
- If the kitchen layout/design or list is provided by the customer, all sizing, fit, and accuracy are solely the customer's responsibility. Kitchen & Bath Direct USA is not responsible for measurement errors, design changes, or fit issues when layouts are provided by the customer.

All time, cost, and adjustments related to customer-provided measurements or design changes are the customer's responsibility. Once an order is signed and approved, it is considered final and binding.

INSTALLATION IMPORTANT NOTICE & DISCLAIMER

Scope of Work

Our installation services include:

- Delivery, assembly, and securing of cabinets.
- Delivery, cutting, and securing of countertops (including sink, cooktop, and faucet hole cutouts).
- Demolition only if selected in your agreement.

Not Included: Structural changes, plumbing, or electrical work. These must be handled by licensed professionals.

Job Site Preparation

- The jobsite must be clean, accessible, and ready prior to installation (walls, floors, ceilings completed).
- No other construction teams may be working during the scheduled installation.
- If the site is not ready and rescheduling is required, additional charges will apply.

Accuracy & Responsibility

- If our team performed the measurements, we are responsible for correcting any errors.
- If the customer provided measurements, the customer is solely responsible for all design accuracy.
- Any changes requested after layout approval will result in additional material and labor costs.

Kitchen & Bath Direct USA is not liable for delays or additional costs caused by incomplete or unprepared job sites, undisclosed obstructions, or last-minute design changes. Any work beyond the stated scope will require a separate quote.

WHERE TO BEGIN YOUR KITCHEN REMODEL?

PLANNING

Start by asking yourself: Do I know my kitchen remodel budget?

Your answer will show whether you're in the planning phase or the shopping phase of your remodel.

I don't know my budget.
How much does a remodel cost?

If you don't have a budget yet, you're in the planning phase.

- Determine a budget that works for you by answering the key financial questions.
- Explore popular kitchen styles to spark inspiration.
- Establish a project timeline to help you move from planning into action.

I know my budget.
How can I make the most of it?

If you already know your budget, you're in the shopping phase.

- Move on to **Design**.
- Discover which cabinet styles you love and start the Prime Cabinetry design process.
- Learn how to maximize your budget so ordering becomes simple and stress-free.
